Tunis Stock Exchange publishes its first ESG Report

Tunis Stock Exchange announces the publication of its first ESG (Environment, Social and Governance) Report 2024. Through this initiative, Tunis Stock Exchange confirms its ambition to be a leading actor in establishing ESG practices in the Tunisian financial market.

The report is a continuity of Tunis Stock Exchange's adherence to the United Nations Sustainable Stock Exchanges (SSE) Initiative, and follows the issuance in 2021 of the ESG Reporting Guide, in collaboration with the Financial Market Council.

With the publication of its own ESG Report, Tunis Stock Exchange is continuing to play its role as a driving force for companies, particularly those listed on the stock exchange, and for all capital market participants, by providing a practical example of what it promotes through its tools and support.

The report highlights the concrete initiatives undertaken, the approach in line with international standards such as the Global Reporting Initiative (GRI) and the United Nations Sustainable Development Goals (SDGs).

Lastly, it is significant to note that the voluntary approach to extra-financial disclosure is gaining ground in our Tunisian market ecosystem, which suggests that our regulations should be brought forward at a faster pace.
